

Stay Connected with Northwind Pharmacy Home Delivery via our RxSteward® Mobile App

Getting Started with Northwind Pharmacy Home Delivery

- + You will receive a text message when Northwind Pharmacy is filling a prescription or processing a refill.
- + Prescriptions are shipping primarily through USPS. If you have a refrigerated package, this may come via UPS.
- + Rx that you take every day will *automatically* ship. Typically, we start to process your refill 12 days before you will run out.
- + Rx prescribed as "PRN" or "Take as needed" will not auto-ship. Please request a refill via the app or contact Northwind directly to request a fill.
- + When no refills remain, follow-up with your provider to obtain a new prescription.
- + Our Pharmacists are available to answer any questions you may have about your medications or supplies.

Download the RxSteward® Mobile App

Stay connected with your Northwind Team through the convenience of your phone.

- + Schedule time with the Northwind Clinical team to discuss your medications or other clinical needs.
- + Keep your profile updated with your correct address. Some employers or health centers may require copays. You can keep your billing information updated on RxSteward® if this applies to you.
- + Stay updated on medications and programs offered through your health center through My Meds and Clinical Blueprints.
- + Manage your medications: view your medication history, request refills, put a medication on pause, and track shipments.
